

Two-way thermostat

- Opening temperature according to customer request
- Unique designed characteristic
- Common development with customer
- Brass material for faster reaction
- Optionally vibration damper and/or gasket

Opening temperature	Temperature of full opening	Max stroke
42°C	52°C	6 mm

Technical parameters

Maximum permissible temperature	+120°C
Possible operation range	+25–95°C
Possible flow rate	500–2000 ml/min
Vibration damper	yes
Gasket	optional
