

Two-way thermostat

- Opening temperature according to customer request
- Unique designed characteristic
- Common developement with customer
- Brass material for faster reaction
- Optionally vibration damper and/or gasket

Opening temperature	Temperature of full opening	Max stroke
55°C	65°C	8 mm
65°C	88°C	8,5 mm
75°C	95°C	10 mm
80°C	95°C	8 mm

Technical parameters

Maximum permissible temperature	+120°C
Possible operation range	+25–95°C
Possible flow rate	can be measured in assembled status
Vibration damper	yes
Gasket	no
