

Two-way thermostat

- Opening temperature according to customer request
- Unique designed characteristic
- Common developement with customer
- Brass material for faster reaction
- Optionally vibration damper and/or gasket

Opening temperature	Temperature of full opening	Max stroke
65°C	88°C	7,5 mm
75°C	90°C	8 mm
85°C	100°C	8 mm
92°C	100°C	8 mm

Technical parameters

Maximum permissible temperature	+120°C
Possible operation range	+25–95°C
Possible flow rate	1000–4000 ml/min
Vibration damper	no
Gasket	optional
